Reza Taghizadeh

SENIOR FLUTTER DEVELOPER

Senior Flutter Developer with **15+** years of mobile development experience (**6 in Flutter**), specializing in building scalable, high-performance apps with a focus on **Clean** and **MVVM** architectures and test-driven development. I have published over **70 applications** across diverse industries, from large-scale **e-commerce platforms** to **gamified** educational tools. Experienced in Android (Java/Kotlin) and iOS (Swift/SwiftUI), I bring a strong cross-platform perspective. My work emphasizes **SOLID, Clean**, **Dry** that make apps more expandable and make code polite. I have the ability to adapt myself to different work cultures and the ability to work within a **tight deadline**.

WORK EXPERIENCE IN LAST 10 YEARS

- Apr 2025 - Jun 2025 — **Senior Flutter Developer,** a2zebra, Germany
- Feb 2023 - Apr 2025 — **Senior Flutter Developer,** moebel.de, Germany
- Oct 2020 - Dec 2023 — **Mobile Team Lead**, ArmanCoders, Turkey
- Jul 2018 - Jun 2020 — **Senior Flutter Developer,** Sana Gostar, Iran
- Aug 2017 - Jul 2018 — **Senior Android and IOS Developer** (remote), IT boost, Australia
- Aug 2016 - Aug 2017 — **Senior Android and IOS Developer**, Delta, Iran

FREELANCE PROJECTS

- Architecture developer in Android and iOS apps for a Denmark startup's pet breeder platform, with customer-side apps planned for future release.
- Building a dynamic, Shopify-integrated white-label mobile app generator for an Australia startup, focusing on scalability and customization.
- Worked as architecture manager in the development of **remotederm.ca** for a **Canadian** company.

SKILLS

- **Flutter**: Expert
- **Android :** Advanced
- **Swift UI**: Junior
- **Java**: Advanced
- **Kotlin**: Junior
- **Swift**: Junior
- **Node.js**: Intermediate
- **Typescript**: Intermediate
- **Dart Backend**: Expert

- Bloc, Riverpod, Provider
- Clean architecture & MVVM
- Http, Dio, Retrofit, Socket
- Getit, Hilt
- Hive, Isar, Sqfentity, Floor
- Design Patterns
- Google Map API
- Package Development
- Cli Development
- Rive implementation
- Usercentrics
- Rest, Soap, gRPC, Firebase

- unit, widget, integration, E2E tests
- A/B test experience
- Architecture Designer
- Tokens and Design systems.
- CI/CD - Codemagic- Github actions, fastlane, Jenkins
- Github, Gitlab, Codecommit
- Teamwork
- Problem-solving
- Mentorship skills
- Creative

WORK EXPERIENCE IN DETAIL

Senior Developer   a2zebra, Germany | Apr 2025 - Jul 2025

Collaborated with a2zebra to develop TukToro, a haptic-digital math toy for kids 4+, using the "Würfelbildmethode" to teach number visualization. Integrated Bluetooth for real-time app feedback, enhancing engagement for early learners, including those with dyscalculia.

- Design a cli based on clean architecture for game. Using this cli, basic rive files plus a json, could provide most part of game except logics behind each events.
- Analyze critical and not cleaned part of code base.
- Develop flex_track package for handling complex event-tracking.
- Mentored junior developers and conducted technical interviews to support team growth

Senior Developer   Moebel.de, Germany | Feb 2023 - Apr 2025

Moebel.de is a search engine specialized in furniture and interior design products.

- Rebuild application from scratch in 3 months when I joint company.
- Reduce calling the Algolia more than 60% and reduce the costs of company.
- Structured **MVVM** structure based on **Bloc state management** for enhanced speed of development.
- Using Factory and Strategy Design pattern for make UI based on contents that comes from **Contentful** platform.
- Using **Usercentrics** for **GDPR**
- Marketing friendly Approach to using both **Appsflyer** and Firebase **analythics** in same time.
- Using Firebase **remoteconfig** for make application more secure to keep all keys and necessaries values
- Develop internal used backend services using **TypeScript + Vania Dart**
- Reached 90% code coverage includes, unit tests, widget tests and integration tests.
- Defined onboarding process and team norms for mobile developers

Mobile Team Lead   Armancoders, Turkey | Jul 2020 - Jan 2023

Armancoders is a customer-based company that has many customers from different countries around the world.

- Led a team of 4 Flutter developers, fostering a **collaborative environment** and encouraging **continuous learning** and innovation.
- **Architected** and developed **scalable** and **maintainable** Flutter applications, significantly improving app performance and client satisfaction.
- Effectively translating complex project requirements into **actionable** development plans.
- Established rigorous **testing protocols** using unit, widget, Integration, and End to End tests.
- Hold weekly ideation meetings for technical discussion technical on mobile solutions, best practices, a best-released product of week and etc.
- Using **Platform Channel** for creating specific QR code scanner.

Senior Flutter Developer   Sana Gostar, Tehran, Iran, Jul 2018 - Jun 2020

Sana Gostar is a startup company that implemented an educational application based on a powerful gamification system to encourage study between students.

- Carry out gamification in the game, and use **socket programming** to keep the game live.
- Accomplished cache management system and **enhanced the speed** of application by **40%** based on **dev- tools** analysis.
- Create an **image download system** and get all icons and images from the backend and save the images on phone and **decrease the initial size** of the app by more than **40%**.

Senior Android, IOS Developer   **IT Boost, Melbourne, Australia, Aug 2017 - Jul 2018**

IT Boost is an Australian company that works on design and developing mobile applications and web sites for itself and its customers.

- Make optimized and customized **HTML parser** to increase parsing performance by more than **20%** in comparison with parser libraries.
- Use **Stripe methodology** for payments.
- Construct chat part with **socket.io** to increase the speed in comparison with firebase.
- Build an app camera with surface methodology and cropper to decrease the bugs.

Senior Mobile Developer   **Delta, Tehran, Iran, Aug 2016 - Aug 2017**

Delta is the biggest real estate company in Iran. It has a large scale IT department with more than 50 personal and works on softwares for home consultants and customers.

- Employed in a large scale company with more than 50 personals in It department.
- implement **CI/CD** to automate the application publishing process.
- publish 4 applications in just 1 year.

EDUCATIONAL

- **Master of Software engineering**   Qazvin Azad University | Jan 2012 - Dec 2014
- **Bachelor of Software engineering**   Ahwaz PayameNoor University | Feb 2007 - Aug 2011
